

Mohammad Shamsi

Back-end Developer

Mobile Application Developer

 Tehran, Tehran Province, Iran
 (+98) 9176509634

I developed a particular interest in programming during my undergraduate studies at the Computer Engineering dept., The Kermanshah University of Technology. After graduation, I worked as a freelancer for two years as an android developer. Since 2020, I have been a Mobile Application Developer and Backend Developer at [Domil.io](https://domil.io) Co. My experiences made me good at independence, work and teamwork.

Work Experience

Back-end Developer • Domil.io

January 2022 - Present

In January 2022, with good experience as a mobile developer, I started a Back-end Development Position in the same team, at Domil.io company. During this time, I have improved my skills and knowledge and had many interesting experiences.

Mobile Application Developer • Domil.io

July 2020 - January 2022

In July 2020, I started my internship as a Mobile Developer with Flutter framework. After three months, we created a new development team, and we started the Jeanswest Store Application Project. After one year and 7 months, due to personal interests and team needs, I changed my stack to back-end Development.

Freelance

Android Developer • Freelance, self-employed

April 2017 - December 2018

In April 2017, at the same time as I started learning programming at the basic level, I found my interest in developing mobile applications.

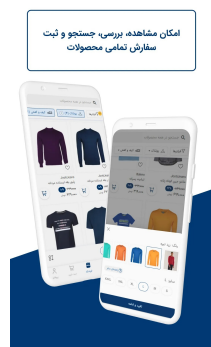

Freelance

Java Software Developer • Freelance, self-employed

April 2017 - December 2018

In April 2017, I started programming with C++ and Java, as a self-taught university academic. I used to do very small and amateur projects on a part-time basis.
